TERMS, ETC.

Terms are cash or satisfactory reference from unknown parties. Accounts due first of each month, unless by special arrangement.

Shipments usually direct from Highlands Nursery, from Pineola, N. C., freight station. New special freight rates. Special express rates connecting with Norfolk steamers. Rates from our Rhododendron fields in Pennsylvania and from Nursery in Salem, Mass., on request.

Packing charged at cost only; our export shipments reach the most remote countries in perfect condition.

Send foreign remittances by Postal Money Order, drawn on Boston, Mass., postoffice, or by New York or Boston Exchange. An American dollar equals 4 shillings, 4 marks or 5 francs.

Claims must be made on receipt of goods. All shipments travel at consignee's risk.

Shipping begins in August, when we send out large Rhododendrons, Kalmias and other Evergreens, and Bulbs and Herbaceous Plants; general stock going out in October and November, and in spring, from about March 1 to May 15. Give shipping instructions, unless you wish to leave it to us. We use our best judgment, but assume no risk.

A Certificate of Inspection is sent out with every shipment.

Strictly hardy stock only is offered in this catalog, unless specially noted.

We publish a beautifully illustrated descriptive catalog.

We make low prices on large lists of nursery stock desired, and are glad to estimate.

The Only Large Stock Ever Offered
of the True

Rhododendron catawbiense

CAROLINA RHODODENDRON

Do not confuse this with the common so-called "catawbiense seedlings" imported from Europe, which is in reality a half-hardy, poor-flowered hybrid with little catawbiense blood in it. The true species grows only in the highest Southern Allegheny mountains, and is the finest of all Rhododendrons, considering its extreme hardiness, color of flower, and remarkable texture of foliage, which is a deep shiny green, far superior to that of the better known Rhododendron maximum.

For massing and producing a broad-leaved evergreen effect, there is no plant equal to it in the latitude of the northern United States, where strictly hardy plants must necessarily be used. Unlike R. maximum, it is a free bloomer, the large trusses being a bright red-purple color, in marked contrast to the muddy purple of the common half-hardy hybrid noted above. All plants offered below are heavy clumps. Packing is done in boxes, or the larger sizes in crates, and is charged at cost. These clumps often have 30 to 50 stems, and are bushy to the ground. We offer both collected and transplanted clumps.

We have magnificent fields for collecting this grand Rhododendron, with reasonable freight rates. Parke, comsterior and nreerymen should write us for special prices in car lots.

PRICES OF RHODODENDRON CATAWBIENSE

Nearly all clumps over 1 foot are heavily budded

Note specially prices of Rhododendron and Kalmia clumps at Salem Branch will be 25 per cent above these rates

Do not compare the many-stemmed clumps offered above with the single-stemmed "bushy" half-hardy Rhododendrons offered by importers. There is no comparison.

KELSEY'S HARDY AMERICAN PLANTS

Rhododendron maximum

THE GREAT AMERICAN ROSE BAY

and Rhododendron punctatum

PERFECTLY HARDY IN THE LATITUDE OF QUEBEC

The use of large native *Rhododendrons*, *Kalmia* and *Leucothoë*, for producing immediate, finished, broad-leaved, ever-green effects is so well established as to scarcely need comment. There is no other possible way to obtain the results to be had by the use of these magnificent hardy evergreens. We sell both collected and nursery-grown clumps in any quantity. Our facilities and long experience are approached by none, and the quality of stock we handle cannot be duplicated. We have over 100,000 *Rhododendrons* and *Kalmias* growing in our Nurseries, fine bushy plants with balls.

Our nursery-grown stock is at Highlands Nursery, in N. C., and Salem, Salem Branch, while we collect car-load lots from special sources in the **Pennsylvania** and **Carolina Mountains**. Prices per car-load of *Rhododendron maximum* vary with size and grade.

Freight rate from our Pennsylvania fields to Boston, New York, Philadelphia, Buffalo and similar points is from \$20.00 to \$40.00 per car. Number of plants to the car varies from forty or fifty to several hundred, according to size and grade.

It is always best to have us make a special estimate where large quantities are desired, and it is cheaper and more satisfactory to buy by the plant, and have cars packed to the utmost limit.

PRICES BY THE PLANT

RHODODENDRON MAXIMUM
